

THE GLEICHEN CALL

VOLUME XXIX NO. 32

GLEICHEN, ALBERTA, WEDNESDAY OCTOBER 21, 1936

SUBSCRIPTION \$2.00 PER YEAR

REPORT OF LAST SESSION OF TOWN COUNCIL

A regular meeting of the Gleichen town council was held for the month of October when Mayor Ostrander and Councilors McConnell, MacDonald, McKay and Thompson were present. After reading the minutes of the previous meeting other business was proceeded with.

The matter of the proposed sewer connections was discussed again before final arrangements for ordering material were made. The secretary was instructed to get the best prices and terms possible on the material required. It was moved by W. McConnell and seconded by C. Thompson that if the prices and terms are satisfactory that D. MacDonald be authorized to act.

It was announced that there would also be some material required for the water and sewer connection to W. McConnell's new garage now under construction.

The secretary presented a report made by the government health inspector of a general inspection of the town made on the 14th of September. While the report in general was fairly satisfactory there were a number of items that required special attention and the secretary was instructed to report these to the medical health officer with a request that the same be inspected at once and a report submitted to the council.

At this point Mr. Gutman, of the Gleichen Hotel waited on the council to discuss the matter of including the Eventide Home in the town population. This was discussed at length. The secretary was instructed to notify Mr. Gutman that this council considers both the Eventide Home and the Reserve as being contributory to the town of Gleichen, and the town derives a considerable business from them, but these could not be considered as being in the town limits.

A number of applications for extension of time for payment of the 1936 taxes and consolidation instalment had been received. After considerable discussion of the matter was moved by W. McConnell seconded by C. Thompson that the council recommend to the Department that this extension be granted.

The secretary reported that a number of water accounts were long outstanding without any definite arrangements being made for settlement. The secretary was instructed to write the parties concerned and request that immediate arrangements be made for the settlement of these arrears, otherwise the water would be shut off.

Applications had been received for town lots for garden purposes. The councillors stated that no town properties were to be broken up for garden purposes.

The secretary presented the monthly statement of receipts and expenditures which were ordered embodied in the minutes.

The following accounts were confirmed as paid: Registrar L.T.O. \$16.40; Shoppers Stores \$69.50; N. T. Purcell \$4.85; Gleichen Hardware \$15.92; Crown Lumber Co. \$11.00; Calgary Power Co. \$33.33; Collins & Collins \$25; J. F. Plante \$21; Telephones \$7.

ST. ANDREW'S CHURCH

Sunday, October 25, morning prayer and Holy Communion at 11 a.m. Rev. C. W. Wiley, M.A., Strathmore.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, minister. Mrs. H. Birch, choir leader. Miss Jean Fergusson, pianist. 11 a.m. Church School. 7.30 p.m. Devine Worship.

The speaker Sunday evening will be the Rev. A. J. Bruce, D.D., F. R. G. S., a missionary from West China who is home on furlough. Everyone interested in world conditions in which China is bound to play an important part, and also in the struggle going on in that land between the Communists and the government of China, also the efforts of Japan to gain control of a large portion of the country should not miss hearing Dr. Bruce as this is an opportunity that does not come every day.

RUGBY SQUAD PLAY RETURN GAME AT ARROWWOOD

(By Don Swain.) Last Saturday afternoon Gleichen played a return game on the Arrowwood gridiron. When the game was over the Arrowwood girls teased the crew to a big bean feed. There can be no doubt that this bean feed is what the locals went for because they certainly did not go to play rugby. When the dust settled after a dreary game, the adding machine showed the count to be Arrowwood forty, Gleichen seven, and Arrowwood could have easily made it worse had they wanted to.

Gleichen was just rotten, and that is letting them down easy. Their line-men were a mere pushover for their opponents and the secondary defence went to pieces on every play. Allan Bogstie, Albert Riddell, Bill Schmidt and Bud Lester were the only ones to display any pep and ambition, but four boys cannot play a rugby game by themselves. Gleichen only made "yards" once during the whole game, and that was when Albert Riddell completed a forward pass. They could not get through the Arrowwood line once.

The locals came to life during the third quarter with the wind behind one back and scored their first point when Eugene Lester, backed by Albert Riddell, they also scored a touchdown when Eugene booted high into the wind with all halfbacks onside, the ball dropped in goal and Bud Lester fell on it for the touchdown. The extra point for the convert was made by a completed forward pass, made by a completed forward pass, made by a completed forward pass. Outside of this one bright spot, Arrowwood went through them and scored almost as they wanted to.

However, and to give credit where credit is due, the Arrowwood squad was clicking like a well oiled machine, and if they play only half as good against Vulcan on Wednesday afternoon this week, they should turn in a win.

Gordon Yellowfoot shapes up like a valuable acquisition to the local team for what slight knowledge he has of the game and the fact that the Gleichen boys absorb something of the technique of interference and blocking out, Gordon is going to gain a lot of yards, but at present, and this applies to any of our speedsters, Bud and Eugene Lester or Jack Garlick, he is not going to get anywhere.

LINE-UPS
Gleichen: B. Lester Quarter, C. Norton Half-backs, K. Vancil E. Lester H. Williams J. Garland N. Dunlop A. Bogstie L. Irwin D. Garland Right Wing, F. Carey J. Desjardins Right Tackle, H. Leith B. Schmidt Right Guard, T. Weiss D. Woods Snap, J. Williams J. Swain Left Guard, L. Williams J. Unbrink Left Tackle, D. Oliver A. Riddell Left Wing, J. Irwin Gleichen subs, Yellowfoot, Leith, E. Ferguson, McLeod.
Arrowwood subs, Rogers, Beagle, Terriehow, Macdon, S. Beagle. Referee, Don Swain. Umpire Mr. Sharp Head linesman Mr. Larson. Arrowwood coach, Mr. Miller. Gleichen coach, Jack Lyons.

SPORTLETS

The Vulcan-Arrowwood rugby game last Wednesday turned out to be a real battle, final score was seven to six in favor of Vulcan and the score is a fair indication of the game. Arrowwood had the edge on their visitors but were refused to death by the Vulcan official. I refereed the first half of the game while the Vulcan gentleman umpired and we reversed positions for the second half. Vulcan fielded a well trained team and it was only necessary to give two yardage penalties against them. On the other hand, it was necessary to penalize the Arrowwood team so often that one lost track of yards, but it must have been at least twelve times.

I consider the Vulcan official was too severe altogether but I could only question one of his decisions. He was just about correct in the rest of his penalties. Perhaps and I hope this catches the eyes of the Arrowwood players if I had been more strict on Thanksgiving Day here, Arrowwood might have known more about what

was allowed and what was wrong, and thus would have beaten Vulcan.

They take their rugby seriously in Arrowwood. Everybody in town and a whole flock of country people were there to see the game.

The Vulcan team is completely equipped from head to foot, helmet to everything, and looked very smart as they trotted on to the gridiron. A Vulcan supporter told me that it cost a hundred and ninety backs to equip the team. Wonder where we are going to get that much from?

It is a little early to start talking about hockey, but we can't help remarking that Doug Young's re-election as captain of the Detroit Red Wings is very pleasant news for local fans. No comment is needed on Doug's standing with the boys in Detroit.

And while we are on the subject we might as well say that Gleichen fans will watch the Calgary Junior Radios with interest this coming season. Radios will have the assistance of Norman Schnepf and "Lakes" Murray from Gleichen, Fisher from Medicine Hat and Currie from Drumheller. This Currie boy is the goal keeper who shut out our smart Aces in the Juvenile semi-finals two years ago. The rest of the Radio line-up are first class performers with two years of Junior competition in front of them and will be heard from plenty when the time comes.

Some time during the next fifty years Gleichen will win a rugby game, but it won't be until it percolates through a few thick skulls that it is worth breaking for a coach to work hard training and teaching and then have half his team parting until 'we o'clock in the morning the night before the game is to be played. You don't win rugby games that way, nor with the help of cigarettes.

SIDELIGHTS

Breathes there a man with soul so dead, who never to himself has said, "I think I'll be a candidate for the Gleichen council?"

A lady in a neighboring town in her hurry to start for church took from the closet what she supposed was her coat, thrust it over her arm and on arriving at church threw it over the back of the pew when she discovered she had her husband's trousers.

A Saskatchewan school advertised for a teacher who could "smoke, dance, sing, play the piano, look attractive and entertain nicely." The requirements were filled by a young woman who had been fired from another school for doing these things.

A Gleichenite wants a course in laughter introduced into the schools. We used to get results in this line with no more equipment than a cactus placed on the seat.

A young Hungarian society woman recently challenged to a duel, a young man of her class who had mentioned her name lightly while intoxicated. When they met to fight with swords, he demanded that she strip to the waist, in accordance with the code. She refused; he laughed and walked away. More insulted than ever, the lady wept.

As king over the stalwart oak and lofty pine, the fig tree would have been a dead failure, and as much out of place as some of our politicians; but for bearing figs the oak and the pine are inferior. Bearing figs is the grandest thing in the world for a fig tree. It shines in its own sphere; but, stripped of its fig-bearing power, it has no excuse for existence. Sometimes a mother, who reigns a majestic queen in her own household, forsakes her quiet sweetness of home rule for a noisy, rough, public career, for which she has not the slightest qualifications. Of course there are no such mothers who are readers of this paper, but we have seen them, and so have you.

"I hardly feel like a stranger," said the best man at a wedding. "My friend has so often done me the honor of reading extracts from his dear Ivy's letters." "Sir! My name is Margaret."

THE WORLD OF WHEAT

(By H. G. L. Strange, Director "Crop Testing Plant") The wealth, welfare and prosperity of farmers, and indeed of all of us, in Western Canada depend mainly upon the sale each year to foreign countries of large quantities of Canadian wheat at satisfactory prices. Between 200 and 600 million bushels a year, it seems to me, will have to be exported if a reasonable standard of living for our producers and other people is to be assured.

Our large annual sales in the past have depended upon the buyers in no less than 72 different countries depending or wanting Canadian wheat. Our problem, therefore, can be stated very simply. It is that somehow we must induce the buyers of 72 countries to "want" between 200 and 300 million bushels of Canadian wheat each year, and to pay a reasonable price for it. Can this be done? Yes, I at least believe it can, provided for one thing, that we maintain, and if possible increase, the present margin of quality or "strength" that Canadian wheat enjoys over the "strength" of all other wheats in the world. But we must remember that meanwhile other countries are steadily improving the quality of their own native wheats. Canada, therefore, will undoubtedly have to increase the efforts she is now making in order even to maintain her present wheat quality.

The recent substantial increase in the price of wheat has been brought about by the complete disappearance of the "barrenness" world surplus that has tended so to depress world price since 1930.

Rainfall that may occur in Australia and the Argentine in the next few weeks is the most important factor in our governing world price. If abundant rains soon occur the world price of wheat will probably fall, however, the price will probably rise still further. The Buenos Aires "Future" market for the moment is an excellent price barometer.

COMING EVENTS

Oct. 24—Sale of home cooking and fancy work in I.O.O.F. Hall by U. F.W.A.

THE GIRL GUIDES

Wednesday, October 21st is Homecraft and Handcraft Day in the Canadian Girl Guide Week, and Guides all across the Dominion have interesting plans and displays along these lines for this day.

The homecraft badges that have been earned by Canadian Guides this past year show a marked increase over previous years. These include Landreth, Cook, Newellman, Child, Nore, Dore, Service and Sick, Nare. This will show that Guide leaders generally are alert to their responsibility of helping to train Canada's future housewives to run intelligent and healthy homes. Homecraft badges are planned to bring beauty and interest into the lives of Guides and to make them handier and more self reliant.

On this day a tea will be held at the home of Mrs. G. H. Gooderham, Commissioner for this Division, when parents and friends of the Guides will be given an opportunity to see what the Guides can do in the way of cooking.

Thursday and Friday will be Citizenship and Service days, and on Friday night at 7:30 p.m. Rev. J. W. House will speak to a combined meeting of the Guides and the Scouts at the Guide Hall. Parents, friends and members of the local Association are cordially invited to attend.

SCOUT NEWS

(By a Scout) A scout meeting was held last Friday evening. The standings were started all over and the Patrol with the highest standing is the Honor Patrol. The Owls are now leading by 10 points and they will be the honor patrol at a bean feed on the 30th of October in which the Scouts and their fathers will attend. The Scouts attended services in the United Church Sunday night, which was greatly enjoyed.

THE WINNERS OF INTERSCHOLASTIC SPORT EVENTS

(Continued from last issue)

300 yard relay. Arrowwood, Annie Androssoff, Dorcas Hill, Edna Brown, Alice Archambault, Gleichen, Rosa Woods, Marion Smith, Florence Bell, Theresa Fluey, Gleichen, Maureen Pincen, Ellen Collins, Doris Krause, Peggy Bogstie.
Running high jump. Edna Brown, Arrowwood; Doris Krause, Gleichen; Alice Archambault, Arrowwood.
Running broad jump. Edna Brown, Arrowwood; Ellen Collins, Gleichen; Doris Krause, Gleichen.
Basketball throw. Ellen Collins, Gleichen; Alice Archambault, Arrowwood.
Class D Boys
Under 14 years, 75 yard dash. Leo Christianson, Gleichen; Arthur Nicholas, Gleichen; Francis Littlelight, Old Sun.
300 yard relay. Gleichen, Leo Christianson, Martin McBean, Arthur Nicholas, Elliott Evans, Old Sun, Francis Littlelight, Earl Mayfield, Francis Aze, James Waterhief, Gleichen, Donald Reid, Ronald Halstead, Dickie Windsor, Teddy Varnell.

Running high jump. Darwin Miller, Arrowwood; Martin McBean, Gleichen; Donald Richards, Arrowwood.
Running broad jump. Martin McBean, Gleichen; Elliott Evans, Gleichen; Arthur Nicholas, Gleichen.
8 pound put shot. Francis Littlelight, Old Sun; Leo Christianson, Gleichen; Billy Brown, Arrowwood.
Class D Girls
Under 14 years, 75 yard dash. Esther Downey, Gleichen; Shirley Taylor, Arrowwood; Alice Krause, Gleichen.
300 yard relay. Gleichen, Esther Downey, Alice Krause, Audrey Sizer, Florence Jeffers, Arrowwood, Ladonna Culp, Freda Board, Arla Jean Larson, Shirley Taylor; Gleichen, Betty Jane McQueen, Eleanor Gooderham, Rachel James, Margery Gorril.

Running high jump. Shirley Taylor, Arrowwood; Rachel James, Gleichen; Ladonna Culp, Arrowwood.
Running broad jump. Shirley Taylor, Arrowwood; Alice Krause, Gleichen; Ladonna Culp, Arrowwood.
Basketball throw. Betty Jane McQueen, Gleichen; Eleanor Gooderham, Gleichen; Shirley Taylor, Arrowwood.
Class E Boys
Under 16 years, 100 yard dash. James Young, Old Sun; Clarence Royer, Arrowwood; Bobby Riddell, Gleichen.
400 yard relay. Old Sun, James Young, George Spotted Eagle, Philip Backfat, Andrew Whitecup, Arrowwood, Arthur Brown, Verland Culp, Marilyn Miller; Clarence Royer, Gleichen; Bobby Riddell, Fred Crawford, Teddy Egles, Jack Reid.

Running high jump. B. Culp Arrowwood; Philip Backfat, Old Sun; Gordon Oliver, Arrowwood.
Running broad jump. Bobby Riddell, Gleichen; James Young, Old Sun; Pete Brown, Arrowwood.
12 pound shot put. Pete Brown, Arrowwood; James Young, Old Sun; Kippa Schmidt, Gleichen.
Running hop, step and jump. Clarence Royer, Arrowwood; Pete Brown, Arrowwood; Bobby Riddell, Gleichen.
Pole vault. Kippa Schmidt, Fred Crawford, Leslie Menard.
440 yard run. Clarence Royer, Arrowwood; James Young, Old Sun; Philip Backfat, Old Sun.

Class E Girls
Under 16, 75 yard dash. Emma Little, Gleichen; Bernice Krause, Gleichen; Doris Harp, Arrowwood.
300 yard relay. Gleichen, Bernice Krause, Emma Little, Helen Kelly, Ellen Jones; Gleichen, Rita Halstead, Florence Warner, Marie Lumsden, Lili Service; Arrowwood, Mary Wiens, Grace Board, Clara Beagle, Doris Harp.
Running high jump. Grace Board, Arrowwood; Florence Warner, Gleichen; Doris Harp, Arrowwood.
Running broad jump. Doris Harp, Arrowwood; Grace Board, Arrowwood; Florence Warner, Gleichen.
Basketball throw. Kathleen Riehl, Arrowwood; Clara Two Horns, Old Sun; Lila Sevice, Gleichen.

Class F Boys
Under 18 years, 100 yard dash. Gordon Yellowfoot, Old Sun; David Gordon, Yellowfoot, Old Sun; Mark Wolfie, Old Sun.
880 yard relay. Old Sun; Gordon Yellowfoot, Mark Wolfie, James Young, Charlie McMaster, Gleichen; Wilbert Lester, David Garland, John Umbrine, James Swain.
Running high jump. Gordon Yellowfoot, Old Sun; Mark Wolfie, Old Sun; Howard Warner, Gleichen.
Running broad jump. Gordon Yellowfoot, Old Sun; Wilbert Lester, Gleichen; Dennis Woods, Gleichen.
12 pound shot put. Harry Laskoski, Gleichen; Edgar Little, Gleichen; Mark Wolfie, Old Sun.
Running, hop, step and jump. Wilbert Lester, Gleichen; James Swain, Gleichen; Gordon Yellowfoot, Old Sun.
Pole vault. Gordon Yellowfoot, Old Sun; Dennis Woods, Gleichen; Frank Michael, Gleichen.
400 yard run. Gordon Yellowfoot, Old Sun; Mark Wolfie, Old Sun; Wilbert Lester, Gleichen.

Class F Girls
100 Yard dash under 18 years. Betty Jean Vancil, Arrowwood; Rita Ferguson, Gleichen; Mary Downey, Gleichen.
300 yard relay. Arrowwood: Dorothy Heiskitt, Florence Royer, Della Hall, Betty Vancil, Gleichen: Bess Hunter, Mary Downey, Rita Ferguson, Marion Varnell, Old Sun: Anne Cranberry, Annie Whitteat, Annie Whittear, Marie McMaster.
Running high jump. Mary Downey, Gleichen; Marjorie Evans, Gleichen; Gertrude Desjardins, Gleichen.
Running broad jump. Betty Jean Vancil, Arrowwood; Gertrude Desjardins, Gleichen; Marjorie Birch, Gleichen.
Basket ball throw. Ida Williams, Arrowwood; Annie Whitteat, Old Sun; Marion Varnell, Gleichen.

Class G Boys
Under 20 years, 100 yard dash. Jack Garland, Gleichen; Kenneth Vancil, Arrowwood; Allan Bogstie, Gleichen.
880 yard relay. Gleichen: Jack Garland, Allan Bogstie, Billy MacCallum, Run Royer, Arrowwood: Lloyd Irwin, Ted Weiss, Herman Leith, Kenneth Vancil.
Running high jump. Jack Garland, Gleichen; Leonard Williams, Arrowwood; John Evans, Gleichen.
Running broad jump. Jack Garland, Gleichen; Billy MacCallum, Gleichen; Herman Leith, Arrowwood.
12 pound shot put. Billy Schmidt, Gleichen; Jack Garland, Gleichen; Leonard Williams, Arrowwood.
Running hop, step and jump. Billy MacCallum, Gleichen; Jack Garland, Gleichen; Ken Vancil, Arrowwood.
Pole vault. Billy MacCallum; Ken Vancil, Arrowwood; Tom Downey, Gleichen.
880 yard run. Leonard Williams, Arrowwood; Ken Vancil, Arrowwood; Herman Leith, Arrowwood.

Class G Girls
Over 18 years, 100 yard dash. Ruby Hall, Arrowwood; Grace Anglin, Gleichen; Vera Hasketh, Arrowwood. (Continued on another page)

New Uses For Old Products

The agricultural depression which has contracted the farmers' pocket books in Western Canada almost to the vanishing point in the past five or six years may be attributed to two main causes—a drought cycle and an undisposed surplus stock of wheat of great proportions, the inheritance of the bountiful harvest of 1928, followed by a fair average crop the succeeding year.

The drought was a visitation of Nature itself, over which mankind could have little or no control, and if this had been the sole cause of an attenuated agricultural bank account the effects of the depression would not have been nearly so severe in Western Canada as they have been, for during the era of gloom the drought area shifted its local somewhat each year though, it is also true, that there are some areas which have sustained the full impact for the entire period.

Over the entire depression period, however, many areas which have experienced drought have reaped some harvests, varying widely in degree, and had good prices for wheat prevailed, many farmers over large tracts would have reaped sufficient returns to carry them through without aid or with comparatively little assistance.

Unfortunately however, this was not the case and the average comparatively low price of farm products and particularly wheat, at times far below the cost of production, was as much a factor in creating conditions which have necessitated debt adjustment on a wide scale as was the lack of moisture and its resultant duststorms and scourge of insect pests.

Dry periods undoubtedly will come again and little can be done to circumvent their ill effects in loss of production and yields beyond perhaps a small measure of conservation, but the lesson of the six year period will have been lost unless some consideration is given to the necessity and wisdom of devising some measures to obviate, or at least reduce, the hazards of a repetition of prices below the cost of production.

There are several directions in which concentration on this problem might well be directed, apart from the erstwhile popular proposal to curtail production. There is the matter, for instance, of efforts to create consumer demand in existing markets for improved and more tasty products of the grain fields, to which reference has previously been made in these columns, and serious consideration might well be given to the possibilities of converting products of the field to industrial uses in the domestic market.

Henry Ford demonstrated that much might be done to make agricultural products available to industry when his experiments revealed that by-products of the soy bean make excellent material for construction of certain automobile parts and accessories, and along similar lines, experimentation in the conversion of grains into alcohol for industrial use and on a commercially feasible basis should be pushed with vigor in the laboratories.

So far the conversion of grain into industrial alcohol has not proved a commercial success, but a fractional advance in the price of gasoline or a reduction of a few cents in the cost of production of alcohol from such source would place it in the field of a competitive fuel with gasoline, a commodity which is used in large quantities by the farmers themselves as well as other consumers in Western Canada.

That greater use of alcohol as a fuel is inevitable in the not far distant future is the conclusion of the "Pennsylvania Farmer" which, in a recent issue has the following to say on the subject:

"The farmer has a double interest in liquid fuels. He is now a leading consumer; he may some day be an important producer. Alcohol made from farm crops can be mixed with gasoline to make a fuel which will run a combustion engine. Since the supply of petroleum cannot last forever a use of alcohol as a fuel is inevitable. It is being hastened by a score of foreign countries by legislation requiring, by taxation or otherwise, a mixture of alcohol with gasoline.

"Without such government intervention the blending does not occur, because gallon for gallon, gasoline is cheaper than alcohol. Under present conditions the effect of this legislation is to subsidize the producer of alcohol at the expense of the consumer of fuel. When producer and consumer is the same fellow it is doubtful if he wants this subsidy.

"In our country the farmer consumes a fourth of the gasoline used. If the price were raised four or five cents a gallon, the extra cost would cut the profits from corn, sugar cane, potatoes, etc., that went into alcohol, while the farmer who grew no alcohol-producing crops would be dealt with unfairly.

"Until gasoline prices advance materially it would appear that hopes for a wider use of alcohol as fuel lie in research rather than in legislation. When alcohol can be made cheaper or better than gasoline, no law will be needed to promote its use, and until then any such law is of questionable value to farmers."

Easy To Define

A young man in college was applying pressure for more money from home.

"I cannot understand why you call yourself a kind father," he wrote his dad, "when you have not sent me a cheque for three weeks. What kind of kindness do you call that?"

"That's unenlightened kindness," wrote the father in his next letter.

Judge Was Obliging

Justice will wait in district court at Hastings, Nebraska, until Attorney F. L. Carrio's false teeth are adjusted. Coupled for a plaintiff in a damage suit, Carrio came into court armed with a dentist's statement that his loose bridgework impeded elocution. A sympathetic judge continued the case to the next term.

Locusts are trapped in ditches in Argentina, dried and ground into powder for fertilizer.

English walnuts cannot be grown to maturity in England, due to the short growing season.

One London firm regularly supplies 6,000 customers with heelless shoes.

Extracting Precious Metals

A New Science In The Mining World To Assist Operators

"Mineralography," a new science in the mining world designed to assist mining operators in their work of extracting precious metals, was described and demonstrated to delegates of the British Columbia division of the Canadian Institute of Mining and Metallurgy meeting at Vancouver.

In a darkened room pictures of hiding places of particles of gold among base minerals were shown, magnified many times, while Dr. M. H. Haycock, of the Dominion department of mines, and Dr. H. V. Warren, of the University of British Columbia, stood in the background and described the new science.

Specially constructed instruments were used to polish ore specimens to the finest surface possible and these are magnified many times by powerful glasses for scientific study.

In this way, the new science said, the new science has already become of great assistance to the mining industry and promises to become still more valuable in determining the best treatment for gold extraction and mineral separation generally.

SELECTED RECIPES

ALMOND MERINGUE CAKE

$\frac{1}{2}$ cup butter
 $\frac{1}{2}$ cups powdered sugar
3 eggs
 $\frac{1}{2}$ cups flour
 $\frac{1}{2}$ cup cornstarch
4 teaspoons Magic Baking Powder
 $\frac{1}{2}$ cup milk
1 teaspoon almond extract
 $\frac{1}{2}$ cup almonds blanched and shredded
Cream butter, add sugar gradually, beating all the time. Add the well beaten yolks, sift together three times flour, cornstarch and baking powder, add to batter mixture alternately with the milk. Add flavoring then the stiffly beaten whites of eggs. Turn into a buttered 9-inch square pan about two inches deep and cover with the almonds and sprinkle with powdered sugar. Bake in moderate oven (350 degrees F.) 30 minutes. Just as soon as the meringue on cake begins to turn color cover with thick brown paper, as when finished baking the meringue should be a very delicate brown.

Claims World Undermourned

Australian Specialist Thinks More Protective Foods Should Be Produced

The world is undermourned, F. L. McDougall, Australian agricultural specialist, said in a report to the biennial general assembly of the International Institute of Agriculture at Rome.

Many world agricultural problems would be solved, he said, if certain nations would increase their production of "protective foods" instead of concentrating on high wheat yields. "Satisfactory human diet must contain sufficient quantities of the kinds of food that provide these hitherto obscure elements in nutrition," the Australian said, explaining "the foods particularly valuable in this respect are milk, cheese, butter, fresh fruit and vegetables, eggs, fish and meat."

Coronation Oath

May Be Slightly Changed To Comply With Statute Of Westminster

When the king takes the coronation oath at Westminster Abbey next May 12 he may use a form of words different from that of his predecessors.

It was made known the oath has been slightly altered in order to comply with the provisions of the statute of Westminster, which changed the status of the dominions.

The new wording, evolved after consultation between ecclesiastical and constitutional authorities, will not be revealed until the full program for the coronation is issued. It is understood the coronation service will be shorter than at the coronation of King George V, because of the absence of a queen consort.

Rare Plants In North

New rare plants have been discovered in the Canadian Arctic by Dr. Nicholas Polunin, a British botanical authority. In a comprehensive survey of northern flora made during the eastern Arctic patrol of the Canadian government, Dr. Polunin, two years ago, made a similar study which he extended on the present expedition. He returned to Halifax on the steamship Nanosco.

Well Protected

Spain's \$700,000,000 gold reserve lies in practically impregnable vaults seven stories below the Bank of Spain building in Madrid, encircled with seven-foot-thick armored steel and concrete.

If You're Told To "Alkalize"

Try This Remarkable "Phillips" Way Thousands are Adopting

On every side today people are being urged to *alkalize* their stomach. And thus symptoms of "acid indigestion," nausea and stomach upset.

To gain quick alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating. OR—take two Phillips' Milk of Magnesia Tablets, which have the same antacid effect.

Relief comes almost at once—usually in a few minutes. Nausea, gas—fizziness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. You'll be surprised at results. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Delightful to take and easy to carry with you. Only 25¢ a box at all drug stores.

MADE IN CANADA
PHILLIPS' MILK OF MAGNESIA

British Croesus

Government Still Checking Up On Estate Left By Sir John Ellerman

For three years, a small army of government clerks have been checking up the estate left by Sir John Ellerman, little-known "richest man in England's history"—and they are still hard at it.

His Majesty's government can well afford the clerical time. It expects to collect nearly \$20,000,000 (about \$100,000,000), or 50 per cent. of the huge fortune, which keeps on growing.

Sir John, ship-owner, industrialist and real estate magnate, died in 1933 at the age of 71. His estate was then valued at \$17,233,977 (about \$86,119,855) "as far as can be ascertained." But only recently it was revalued at \$36,884,594 (about \$183,424,976), and even at that figure, additional property including large foreign interests was not included.

Now investigators have discovered more and more holdings. The final figure is expected to be about \$50,000,000, or approximately \$250,000,000. Exactly half of that goes to the government.

The British croesus left the bulk of his fortune to his son, the present Sir John Ellerman, now 27.

Already \$14,900,000 has been turned over to the treasury in death duties—by far the largest sum the inland revenue department ever received from one estate. In addition, it is estimated that during his lifetime Sir John paid at least \$20,000,000 in income tax and super-tax.

Fall Wheat Sown

At Spring Creek in Southern Alberta considerable fall wheat and rye has been sown in the hope of getting crops next year. Rains have revived the grass on the Blood reserve and some hay has been cut from irrigated lands. Grain yields in the district were ten bushels for wheat and twenty for oats.

The zoetrope, a toy revolving cylinder with slits through which a series of pictures were seen in apparent motion, was invented 30 years before the motion picture.

In The Cause Of Peace

Delegate Says There Is A Momentum Behind The Peace Movement

Mrs. John Cleive, League of Nations Society delegate to the recent peace conference at Brussels, following her return to Toronto, said that the prevailing mood of the conference was "neither optimism nor pessimism, but one of determination."

People in Europe, she said, appeared to believe war was inevitable but that the danger was not immediate.

"The idea of the congress was to bring together on a limited platform as many people as possible, to establish a central bureau in each country to effect this platform, and an international bureau to co-ordinate the work in all countries," she said.

"There is a tremendous momentum behind the peace movement if it can only be harnessed. It will not be known how successful the congress was till we see how seriously the delegates set to work when they return."

Playing Chess By Letter

Principals In Minnesota And South Africa Engaged In Slow Game

The world's slowest chess game is in progress in Blue Earth, Minnesota. One player is in Blue Earth and the other in South Africa. The players indicate their moves by letters to each other. As it takes 30 days for a letter to travel from one player to the other, the game is likely to continue for another five years. The principals in the match are John Brooks, president of the Johannesburg Chess Club, and Don Fitch, of Blue Earth. "It is a very thrilling game," Fitch declares. "Sometimes I sit up half the night deciding on the next play after I hear from Brooks. He's a pretty tough opponent, but he can't beat me before 1940 anyhow."

A motion picture theatre has just been opened in Santiago, Chile, which is air conditioned and both earthquake and fireproof.

ON ANY ROAD

IN ANY WEATHER

GROUND GRIP TIRES take you through

Ground Grips are the greatest tires ever built for traction. The patented self-cleaning, super-traction tread makes its own road through mud, snow, sand and gravel. Thousands of doctors, salesmen, farmers and truck operators who travel over all kinds of roads in all types of weather enthusiastically report Ground Grip tires their greatest driving aid.

Ground Grip tires cost no more than standard types of tires. Have your local Firestone Dealer equip your car or truck NOW.

Seventy Varieties Of Maple

Only Obtained From One

There are over 70 varieties of
maple trees in the world, but only
one of the seventy yields sugar in
commercial quantities. This is the
famous hard or sugar maple which
grows in Canada from the Atlantic
Ocean to the Lake of the Woods and
in the eastern United States. Its
beautiful leaf is the national emblem
of the Dominion. About 95 per cent.
of the maple products industry in
Canada is at present, confined to the
St. Lawrence River valley.

Flowers of the "Dutchman's-pipe"
catch pollen-laden insects and refuse
to release them until the blossoms
have been pollinated.

Thou Shalt Not Love

— A NOVEL BY —
GEORGIA GRAIG

CHAPTER VII.—Continued

"What was there to do? I tossed
a twenty-dollar bill to one of the
attendants to see that he got into his
car all right. Such carrion was not
worth soiling my hands over."
Pain tore at Starr's heart. His
words were properly chosen, but
there was something in his careless
tone. What he really meant, it was
quite plain to her, was that her honor
was not worth soiling his hands over.
A twenty-dollar bill was nothing.
Money smoothed his play-boy path
wherever he went. . . . An icy hand
clutched at Starr's heart. For it was
quite as plain to her that he expected
his money to win her. In his own
way, on his own terms.

Not for the world, though, would
she have let him know she realized that.
With a flash of her old bravado,
she said flippantly:

"And what does that make me?"
Lance's black eyebrows lifted
slightly, and he smiled, with a touch
of indulgence.

"I hope it makes me your cavalier
for the evening, at least," he said,
his voice low, almost a whisper.
There was a wealth of meaning in
his tone which lent his innocent
words a deep significance.

Starr turned away from him with a
wave of revulsion. Lance Marlowe
was quick-eyed; he was trained to
the nuances of feminine emotion. He
saw his mistake instantly, and his
face darkened.

"I should have known better than
to use my usual line on you." There
was a touch of insolence intended.
Then he shrugged. "I suppose you'll
not be wanting to stay any longer—
now—so at least I can see you to
your car, get your wrap for you, or
something?"

Starr cried out almost in a panic.
"No—no! Nothing! And I have no
intention of running away from—
from—oh, any or you!"

But in spite of her deft, suddenly
she was fleeing from him. Anywhere
to get away. She had said she meant
to stay, but she really wanted to
do was to get away forever from
this mad, glittering playtime world.
It was not in any way what she had
expected it would be. Living out her
span in drab obscurity was better—
a million times—than this!

Half blinded with the tears she
was forcing back as she dashed up
the balcony steps, she collided with
something that stopped her flight.
The strong, vital body of a man. A
second her face was buried against
the front of a starched shirt; then
she looked up, dazed.

"Starr! For Heaven's sake! Where
do you think you're going? Out to
beat some kind of a record?"

Michael's hands were gripping her
shoulders. Michael's face beamed
down at her. He was so full of his
own satisfaction that he did not even
notice her agitation. He could take
things lightly like that, make humor-
ous remarks, laugh when her heart
was breaking!

Again she was conscious of the
overpowering attraction of his pres-
ence, like an intoxicant in her blood,
that sent it singing along through
every vein in her body. She fought
against it desperately. Why must it
be like this?

Michael was so pleased that he al-
most hugged her. Yet his pleasure
was simply that of a man who has
just put over a good business deal.
It was all in the head, not the heart.
He grinned, standing off to look at
her with his head cocked a little to
one side.

"Pretty swell!" he commented.
"You are marvelous, Starr—superb!
Everything is going just as we
planned; better than we planned.
You'll be the talk of the town to-
morrow!"

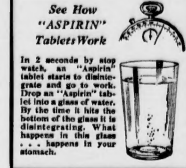

The casual coquetry of the
man! As long as his own end was
served, what did he care the price a
woman paid? But how could she
know he was congratulating himself
on his own perspicacity—and his luck!
—at picking up a girl who had come
out in La Luna and having her turn out
like this, as if she had been used to
people of this kind all her life? Or
perhaps it was her training for her
racket—that helped?

Starr's resentment raged again.
Conflicting strangely with her stinging
emotions. She clenched her fists
until the scarlet nails dug into her
palms. A cold, brittle voice came
through her painted lips.
"I can't go through with it,
Michael!"

His jaw dropped, and he stared.
"Can't go through with it?" he
echoed unbelievably. "But why?"

To Ease a Headache Fast

Get Real Quick-Acting,
Quick-Dissolving
"ASPIRIN"

See How
"ASPIRIN"
Tablets Work

In 2 seconds by stop
watch on "Aspirin"
tablet starts to disinte-
grate and go to work.
Drop an "Aspirin" tab-
let in a glass of water.
By the time it has dis-
solved the action of the
tablet is dissolving. What
happens in one glass
happens in your
stomach.

For QUICK Relief
If you suffer from headaches
you want it quick relief.
"Aspirin" tablets give quick
relief, for one reason, because they
dissolve or disintegrate almost in-
stantly their tough moisture. (Note
illustration above.)
Hence—when you take an "Aspi-
rin" tablet it starts to dissolve al-
most as quickly as you swallow it.
And this is ready to start working
almost instantly—headaches,
neuralgia and neuritis pains start
easing almost at once.

"Aspirin" tablets are made in
Canada. "Aspirin" is the registered
trade-mark of the Bayer Company,
Limited, of Windsor, Ontario. Look
for the name Bayer in the form of a
cross on every tablet.
Try it. You'll say it's marvelous.

Demand
and Get—
ASPIRIN
LOOK FOR THE BAYER CROSS

What's the matter?" Has anything
happened?"
Suddenly it was he who was agi-
tated. He saw his money-making
scheme falling through because of
the whim of a girl he should have
known better than to have trusted in
the first place. His hands tightened
their grip on her shoulders, sending
shooting sparks of fire through her
soft flesh.

He said rapidly: "What's wrong,
Starr? Haven't I done enough for
you? Isn't the salary high enough?
I'll raise it!"

Money! Was that all that men
thought about? And this particular
one probably thought she was trying
to hold him up, now that he had con-
fessed she was making good, better
than he had hoped she would.

A deep, trembling sigh shook her
whole body, only to be repressed.
She realized only too well how hope-
less it was to try to explain, to try
to make him understand what this
night had done to her. She had too
plain a memory of the one or two
occasions when she tentatively had
tried to make him understand that
she was not the kind of girl one
usually picked up in place like La
Luna. He had not believed her. She
had known that. All he had seen in
her was a good little actress who
could carry out his plans, and he was
thanking his lucky stars that some-
time or other she had known what
was called "the better things of life."

She writhed before his taunt,
searching face. Dusky lashes shad-
owed against her ivory cheeks, hid-
ing her passion-filled eyes from him.
"Money!" she repeated dully.
"That's not the reason. I've changed
my mind, that's all!"

"All!" A long moment he paused.
When he spoke again a harsh note
had crept into his voice. A note of
contempt.

"I didn't know you were a quitter,
Starr."
Her vivid face flashed up to meet
his gaze. What he said stung her
more than that had gone before.

"So that's what you think of me?"
"What else do you expect me to
think?" He shrugged, and a queer
little quirk came around the corner
of his mouth. "Or is it, perhaps,
that Lance Marlowe has offered you
a more attractive proposition? He
would!"

She glared at him, breathless in
her instantaneous raging fury.
(To Be Continued)

"And what is your name, my little
man?"
"Henry, sir."
"Why did you parents name you
Henry?"
"I'm the eighth, sir!"

"Why has your husband been
summoned?"
"I'm not quite sure, but I think a
policeman held up his hand and Jack
put his foot on the exasperator!"

"If you are doing business every
day it is necessary to tell the pub-
lic that fact."

Opening His First Parliament

King Edward Will Be Speaking To
Crowded House

King Edward will open the first
parliament of his reign at West-
minster November 3. He will drive
in full state from Buckingham Pal-
ace to the House of Lords, and will
read his speech from the throne to a
chamber crowded with peers and
peereesses and with the "Faithful
Commons" in attendance.

The King will not wear a crown.
The crown and the sword of state
will be taken from St. James' Pal-
ace to the House of Lords in a state
landau, guarded by an escort of life
guards, and the cap of maintenance,
the other emblem of royal power,
will be carried in front of the King.
Not until he has been crowned at
Westminster Abbey in May will King
Edward wear his crown.

If he follows the example of his
father, who also opened his first pa-
rlament some time before his corona-
tion, the King will wear full-dress
naval uniform for his drive from the
palace, and will don heavy robes of
crimson velvet edged with gold for
the ceremony in the Lords, putting
on the cocked hat of an admiral when
he comes to read the speech from
the throne.

While he is at the House of Lords
the King will carry out another cere-
mony of great constitutional impor-
tance. This is the signing of the royal
declaration of Protestant faith, which
the sovereign must make either at
the opening of his first parliament or
at his coronation, whichever comes
first.

Another Boat Salvaged

German Battleship Taken From
Scapa Flow To Shipbreaking Yard

The former German battleship
Kaiserin, salvaged from the sea bed
at Scapa Flow, completed her jour-
ney from the Orkneys to the ship-
breaking yard at Rosyth Dockyard.
She carried a crew of 14 men, who
were accommodated in huts erected
on the keel, and whose duties were
to attend to the pumps which kept
the hull afloat.

Like the other vessels of the scut-
tled fleet which have been raised and
taken to Rosyth, the Kaiserin made
the passage upland, towed by
three Dutch tugs—Edinburgh Scots-
man.

throat where most colds start. Used in time,
Va-tro-nol helps to avoid many colds.

VICKS VAPOROL

Little Helps For This Week

The Lord is high unto all them
that call upon Him, to all that call
upon Him in truth. Psalm 145:18.

Be Thou O Rock of Ages high;
So shall each murmuring thought
be gone,
And grief and care and fear
shall fly
As clouds before the mid-day
sun.

Take courage and turn your
tribulations which are without remedy
into material for spiritual progress.
Often turn to the Lord who is watch-
ing you amid your labors and dis-
tractions. He sends you help and
blessees your afflictions. This thought
should enable you to bear your
troubles patiently and gently, for
love of Him who only allows you to
be tried for your own good. Raise
your heart constantly to God, seek
His aid, and let the foundation stone
of your consolation be your happi-
ness in being His. All vexations and
anxieties will be comparatively
unimportant while you know you
have a Friend who is such a Refuge.

Tribute To Boy Scouts

In the course of a tribute to the
effectiveness of boy scout training
during a discussion of juvenile delin-
quency at the world conference of
Rotarians at Atlantic City, Dr. Amos
O. Squires of Ossining, N.Y., stated
that statistics showed only three out
of every 30,000 criminals had ever
been boy scouts.

Motorists who insist on their rights
often get them. Only they're spelled
"r-i-t-e-s", and slow music goes
with them.

From the peaks of North Sweden
the sun can be seen continuously for
six weeks.

A Royal Privilege

Toronto Witnesses Allowed To Affirm
Rather Than Take Oath

Rev. D. I. Ellison took advantage
of a royal privilege granted to Pres-
byterians 200 years ago when he ap-
peared in women's court at Toronto.
The minister expressed a wish to
affirm rather than take an oath on
the Bible in a bigamy case in which
he was called as a witness.

"A Presbyterian and not swear on
the Bible?" exclaimed Magistrate
Cowan.

Told of the royal privilege, Mr.
Cowan said he had been a Presby-
terian all his life and had never
heard of it. He allowed the witness
to affirm his intention of telling the
truth.

Bank of England notes in circula-
tion have now reached a total of
\$2,733,945,000.

EVEREADY
AIR CELL 'A' BATTERY

LAYERBILT 'B' BATTERY

The quality of radio
reception largely depends
on your batteries. Ask for
Eveready—and be sure!

IT IS AIR CELL that has made battery radio so immensely
popular these days. Air Cell—the modern battery—does away
with the necessity of re-charging.

Air Cell maintains itself by simply breathing air. It sounds like
a miracle and it is indeed one of Science's great achievements. Best of
all, peak power level is maintained for 1000 playing hours. No dwindling
of power as in other batteries.

And Layerbilt! Well—everyone knows it is the super "B" battery.
It is built in tightly-packed layers and gives far longer life than the
old-fashioned round-cell types. Thus you don't have to change your
"B" battery as often as formerly.

This year, Eveready has eliminated the terminal posts and given you
one socket—this means only one connection for each "B" battery.

For perfect team work—Air Cell plus Layerbilt.

Town & District

Mr. and Mrs. Karl Crowe and family have moved to Barstow for the winter.

Mrs. Roscoe McKay of Calgary has been spending a few days with Mr. and Mrs. W. J. McKay.

Mr. and Mrs. D. F. Hartley of Banff were visitors to Gleichen for a few days last week.

Geo. Silverthorne of Hamilton, Ont., spent a day in town last week visiting his sister Mrs. W. P. Evans.

Miss Ivy Hunter and Mr. Raymond Monard cycled to Calgary to attend the Hill Climb sponsored by the Calgary Motorcycle Club.

A very successful Thanksgiving tea was held in Taffee's Coffee Shop under the auspices of St. Andrew's W. A.

The W. A. of St. Victor's Church are preparing to hold a Tombola and dance on the evening of November 3, in the Meadowbrook Hall.

According to the Dominion census the Municipality of Blackfoot has a population of 1,623 as compared with the census of 1931 which was 1,590. This is a decrease of 62.

The gravel that has been spread on the roadways at several corners in town makes the crossing of the streets much more agreeable in muggy weather.

A couple of Gleichen boys who are enthusiastic swimmers jumped into the Bow River for a swim one day last week. They jumped out in a hurry when they found the water a little cold.

The spell of magnificent Indian summer apparently came to an end Sunday when rain began to fall late in the afternoon. Monday quite a lot of snow fell during the day but most of it melted as it touched the ground. Tuesday more snow fell to the depth of several inches. It is stated that it was a year ago Sunday when the first snowstorm of 1935 struck.

An ad as follows: "Found—at rugby game on Monday one elegant black leather case. Owner can have same by identifying and paying for this advertisement."—brought results in short order. We are just telling this because almost every week we hear of ads in The Call bringing results. And yet there are some who say it does not pay to advertise. It does if you have something that is of interest to someone else.

Girl Guide Week is being observed in Gleichen with the rest of Canada in a spirit of national co-operation and service with all sections of the Girl Guide family, which now numbers close to 50,000. Company and Brownie Pack meetings have been open to interested friends, and a warm welcome is assured any who wish to attend and see for themselves. Just why the children are so attached to their organization. The local Guides and Guides invite the interest of their friends during the balance of the week of special Guide activities.

At 9:45 Sunday night the fire whistle caused considerable excitement in town when it was sounded for a chimney fire at the home of A. Gurrath, about a half mile east of town. Both chemical engines were taken but one was sufficient to extinguish the blaze which was in the chimney of the fire place. The neighbors attempted to smother out the blaze by plunging the top of the chimney but this caused the smoke to flow out at the bottom doing little damage to the sitting room. Finding they could not extinguish the fire W. Halstead phoned to town for help. Mr. Halstead stated he was awakened at the spread which the fire brigade responded, adding that he had hardly left the house when he could see the headlights of the cars coming down the road. The record is remarkable when it is considered that it was Sunday night, raining slightly and everybody at home, yet they were able to get their cars out, hook on the chemical engines and be off in a jiffy.

Here and There

Outstanding success has attended the publication of J. Murray Gibson's book, "Steel of Empire," in which is told the history of transportation in this country. The first edition of this comprehensive and finely illustrated work on Canada's history was sold early and another is now out in preparation for sale as Christmas gifts, for which it is anticipated there will be a heavy demand.

Effective January 1, 1937, contributory pensions for Canadian Pacific employees will replace the 25-year-old non-contributory system. Since the latter system's inception in 1903, the railway has paid out \$18,201,619 in pensions. Under the new plan, officers and employees will contribute three per cent of their wages or salaries. Pension rates will be unchanged and pensioning age will be the same as heretofore.

Twenty-three arrivals from British and continental ports and twenty-three departures by Canadian Pacific liners will constitute the passenger service from St. John's and Halifax during the coming winter season, it is announced from company headquarters. Pension rates will commence November 28 and close in mid-April.

Alain M. Irwin, of Montreal, has been awarded one of the Pamphlet Essay prizes for the book, "and ships—and sealing-wax." It was announced recently by Quebec Provincial Secretary Paquette. The book, written during a cruise around the world in the Canadian Pacific liner Empress of Britain, received the only English award in the Lenay prize list, "and ships—and sealing wax," which is published in Canada and Great Britain by Macmillan's, deals with the lighter side of cruising, and is a valuable, if informal, aid to would-be travellers.

Two Canadian Pacific scholarships at L'Ecole Polytechnique and L'Ecole des Hautes Etudes Commerciales respectively have been awarded to Gilbert Proulx, 18, son of Arthur Proulx, varenhousman, C. P. Express Company, Montreal, and Roger Bussière, 19, son of Philias Bussière, trucker and checker, Place Viger freight office, Montreal. Each is tenable for five years.
